a discourse grammar of mandarin chinese focuses on the relationships between clauses in mandarin chinese in the functional framework underlying these relationships are notions like modality presupposition topicality and information structure encoded by such devices as conjunction aspect topic sentence particles and subordination chauncey chu devotes a chapter to each of these devices with a view to discovering their contribution to the coherent organization of chinese discourse these devices are finally integrated into a network culminating in a proposal of the discourse sentence represented by sentence to replace the syntactically and or semantically defined traditional sentence the

organization of sentences into paragraphs also is discussed in the framework of rhetorical structure theory
