

Samenvatting Management Accounting

Accounting is the process of recording, summarizing, and reporting the financial transactions and events of an organization. It is a key component of management accounting, which provides financial information to internal management for decision-making. The primary goal of management accounting is to provide accurate and timely financial data to help managers understand the financial performance of the organization and identify areas for improvement. This involves analyzing costs, revenues, and profits, and presenting the information in a clear and concise manner. Management accounting is essential for the success of any business, as it allows managers to make informed decisions about resource allocation, pricing, and investment.
